### PORTABLE STORAGE WITH SOFTWARE FOR SIMPLE BACKUP, SYNC AND SECURITY

Are you on the run? Do you travel frequently, need to transfer files between two or more computers, or are constantly trying to remember which versions of your documents are the most current? Then the Maxtor OneTouch III Mini Edition is the solution for you. A portable, feature-rich yet easy to use backup and storage hard drive that fits in the palm of your hand.

Your digital data—whether it's business documents, artwork, files for school, or personal memories—is precious to you and critical for you to maintain. The most effective way to safeguard your files is to back up your computer. And Maxtor makes it simple to back up all your files or selected files on your computer, automatically or with one touch of a button. Weighing less than 8 ounces, the Maxtor OneTouch III, Mini Edition is the perfect solution for anyone who needs an easy, secure way to carry their up-to-date digital portfolio.

Part of the OneTouch III family and featuring their award-winning user experience, with the Maxtor OneTouch III, Mini Edition you get backup, storage, security, and travel capabilities all in one—the most complete portable solution on the market today. Designed for mobility the Mini Edition can be carried in your pocket, briefcase, or backpack while holding up to 160GB of your data. It is the perfect solution for traveling business and creative professionals, students and anyone on the go.

### The only all in one package—backup, store, protect, travel!

The Maxtor OneTouch III Mini Edition also gives you one of the most feature-rich portables available. The Mini Edition plugs into your personal computer via a USB 2.0 port for both data transfer and power\*, no additional power cords are needed. It also lets you effortlessly synchronize data between two or more computers on the same operating system, so that your most up-to-date files are always at hand. And the Mini Edition comes with two levels of security, Maxtor DriveLock™ and Encryption for Windows only to safeguard against unauthorized use. The System Rollback feature can roll back your Windows system to a point in time, such as before a virus attack, while keeping your data current.

The Maxtor OneTouch III Mini Edition is ideal for anyone who needs to:

- Easily bring important files with you, wherever you go
- Have the same up-to-date files both at home and at work
- Have a simple reliable backup solution for your files
- Have the ability to easily retrieve past versions of backed up files
- Have the security of knowing your data is protected in case of loss or unauthorized use

The Maxtor OneTouch III Mini Edition—the simple, secure way to carry your digital portfolio.

One gigabyte, or GB, equals one billion bytes when referring to hard drive capacity. One terabyte, or TB, equals 1,000 gigabytes when referring to hard drive capacity. Accessible capacity may vary depending on operating environment and formatting. Quantitative usage examples for various applications are for illustrative purposes and are based on the following assumptions: each hour of DVD-quality video is 2.1GB, each digital photo is 1MB, and each MP3 is 4 minutes long. Actual quantities will vary based on various factors, including file size, file format, features and application software
